SUMMARY

Enthusiastic and detail-oriented software developer fresher with a solid academic foundation in Computer Science. Hands-on experience gained through internships in software development, complemented by a strong proficiency in [mention relevant programming languages/tools]. Eager to contribute technical skills and creativity to a dynamic team, with a passion for solving complex problems and delivering high-quality software solutions.

INTERNSHIP

Webgapp-web developer

jun 2023

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Designed and implemented user interfaces to improve usability and accessibility.
- Collaborated with a team using Git for version control, ensuring project cohesion and code integrity..

Phoenix softech -php developer

May 2024

- Developed dynamic web applications and functionalities using PHP and MySQL.
- Assisted in troubleshooting and debugging PHP code to ensure functionality and performance.
- Collaborated with senior developers to integrate front-end elements with server-side logic, ensuring seamless user experiences.

PROJECTS

Smart Helmet System for Bike Safety

- Developed and implemented a smart helmet system integrating IoT sensors to automatically start the bike engine upon helmet attachment.
- Designed and integrated an alcohol detection module that disables the engine if alcohol consumption is detected, ensuring rider safety.
- **Technologies Used:** IoT sensors, Arduino, alcohol sensor modules, real-time communication protocols.

EDUCATION

2021 - 2025	Sethu institute of technology	Current - (cgpa:7.8)
2021	Sambaviga HR.Sec	percentage - 79.7
2019	Class 10th State Board	percentage - 72.4

SKILLS

•Python, •Html, •CSS

CO CURRICULAR ACTIVITIES

- I attended the international conference on Recent Innovation in information and computing technologies
